The background is a deep blue gradient with a subtle pattern of white stars and light blue nebulae. Overlaid on this are several faint, white technical diagrams. In the top right, there is a large circular diagram with concentric circles and radial lines, resembling a protractor or a gauge, with numerical markings from 0 to 210. In the bottom right, there is a smaller circular diagram with concentric circles and a dashed line. In the bottom left, there is another circular diagram with concentric circles and a dashed line. The text "開始" is written in a large, bold, yellow font, positioned in the upper left quadrant of the image.
